

# Booking the incucytes with OpenIris

## Booking a single plate

A single plate can be booked just like any other microscope. Just select the plate you are interested in and book available time.

> see separate tutorials on how to book a microscope

## Booking a multiple plates

To book multiple plates, start with the first one and book available time.

In the booking window go to the "Add-ons" tab on top of the window.

This will show all other plates and whether they are available during the booking. Add as many available plates as you need to the booking and confirm the booking in the main tab.

openiris.io

The screenshot shows the openiris.io scheduler interface. On the left, a sidebar menu is circled in red, highlighting the 'Scheduler' section which includes 'Timeline', 'List (Time)', and 'List (Day)'. The 'List (Time)' option is selected. The main area displays a search bar with 'Incucyte' and a time range from 'Monday, January 12 2026' to '24h'. Below this, a list of bookings is shown for various Incucyte plates, with a specific booking for 'Hanna Grobe' highlighted. A timeline at the bottom shows scheduled times for different plates.

1 Filter for “Incucyte”

2 Select the time frame you want to see  
(if you selected “List (Time)” you will see the bookings by the hour, if you selected “List (Day)” you will see the bookings per day)

3 See the bookings for all plates

Pro-Tip:  
By dragging over the times you can also book directly from this view

## See the booking status of all plates at a glance

In the menu on the left side go to “Scheduler” and open one of the two “List” options
