

STAKEHOLDER WORKSHOP **17 November 2021**

Wednesday 17 November 2021 at 12:00-17 CET
Online workshop
Find the link to the workshop at www.uef.fi/edcmet

The stakeholder workshop gathers representatives from research, regulatory authorities, industry, civil society, and contract research organisations, policymakers as well as other experts working in the field of EDCs. The purpose of the stakeholder workshop is to present and discuss the results from the first phase of the EDCMET project. Stakeholder feedback will be collected, reviewed, and used for optimization of the project strategy.

12:30 Welcome and introduction

Albert Braeuning, EDCMET leader of dissemination and outreach, BfR

12:35 Overview of EDCMET project and EURION cluster

Anna-Liisa Levonen, EDCMET coordinator, University of Eastern Finland

12:45 Results of EURION stakeholder survey

Albert Braeuning, EDCMET leader of dissemination and outreach, BfR

13:00 EDCMET presentations

13:00–13:15 In silico methods to identify endocrine disrupting effects of chemicals
Nick Plant, work package leader, University of Leeds

13:15–13:30 In vitro and omics methods to assess metabolic effects of EDs
Rinie van Beuningen, work package leader, Pamgene

13:30–13:45 In vivo models for the assessment of metabolic effects of EDs
Jukka Hakkola, work package leader, University of Oulu

13:45–14:00 Population-based assessment of exposure to chemicals and ED-related metabolic effects
Arja Rautio, work package leader, University of Oulu

14:00–14:30 Break

14:30 Stakeholder perspectives

15:30 General discussion

Albert Braeuning, EDCMET leader of dissemination and outreach, BfR

16:30 Wrap-up of the workshop

Anna-Liisa Levonen, EDCMET coordinator, University of Eastern Finland

17:00 End of workshop

This project has received funding from the European Union's Horizon 2020 research and innovation programme under grant agreement No 825762.
