

Patient information	Name	Identification code	Blood sample date
---------------------	------	---------------------	-------------------

☐ A patient is suspected to have FH:

Cholesterol:

LDL-cholesterol:

Triglycerides:

Additional information (e.g. family history):

Available tests	DNA extraction, gene analysis and statement are included in the prices. invoicing costs 5 €. Cost of urgent analysis 100€ (Can be applied only to analyses which described with option of urgency). ☐ Screening of the FH-Helsinki, FH-Pohjois-Karjala, FH-Turku, FH-Pori and FH-Pogosta mutations in the LDL receptor gene (300€) ☐ Screening of the FH-Helsinki, FH-Pohjois-Karjala, FH-Turku, FH-Pori and FH-Pogosta mutations in the LDL receptor gene if result negative then Screening of the coding region of the LDL-receptor (LDL) gene and deletion analysis (1000€) ☐ Screening of the FH-Helsinki, FH-Pohjois-Karjala, FH-Turku, FH-Pori and FH-Pogosta mutations in the LDL receptor gene if result negative then deletion analysis and screening of the coding region and promoter area (approximately 1000 bases before exon 1) of the LDL-receptor (LDL) gene (1000€) ☐ Deletion analysis and screening of the coding region and promoter area (approximately 1000 bases before exon 1) of the LDL-receptor (LDL) gene (890€) ☐ A previously identified gene variant (220€/each) - family relationship, name, identification code and previously identified gene and mutation: ☐ A previously identified deletion or insertion (400€) - family relationship, name, identification code and previously identified gene and mutation:
------------------------	--

Delivery of the results and invoicing	Physician Address
--	---

Invoice address and VAT number

Sample requirements	- Two EDTA blood tubes (2x3-7ml, infants 1x0.5-3 ml) or extracted DNA (e.g. tissue samples) - Write a patient name, identification code, blood sample date on the tube - After taking a blood sample store it in a refrigerator - Mail the blood samples by express mail at ambient temperature as soon as possible - Mail the blood samples on Monday, if possible
----------------------------	---

**Shipping
address**

University of Eastern Finland
Institute of Clinical Medicine / Laboratory of Internal Medicine
PL 1627 (Yliopistoranta 1 C)
70211 Kuopio
Finland
