

MARCH 5 & 6, 2020
414 AMPHIMAX
UNIVERSITÉ DE LAUSANNE

International scientific seminar

unitwin international network

Life designing interventions (counseling, guidance, education) for decent work and sustainable development

This network was created as part of the UNITWIN/Chairs UNESCO program. It brings together 19 universities from around the world (Europe, South America, North America and Africa) that cooperate to promote access to decent work and decent life through vocational guidance, career counseling and life designing. In order to achieve this, this network takes part in researches and creates programs to promote social inclusion (wp.unil.ch/unitwin).

In this context, the UniTwin international network organizes a day of presentations open to the public. During this day, the members of the network will give symposiums, conferences and do a roundtable. The thematic of this day will be the role of vocational counseling to promote access to sustainable careers.

Presentations will be given in English.
